

HisabDo Internship Bootcamp

Software Quality Assurance (SQA) Track

Day 12 – Capstone Project

(QA Report)

Submitted By:

Eshal Kamal

Internship Duration:

60-Day Internship Bootcamp

Organization:

HisabDo

Submission Date:

12th August, 2026

Mobile App Test Cases

Test Case 1:

Attribute	Description
Test Case ID	TC-01
Module	Receivable
Test Scenario	Verify that a receivable can be added successfully using only the mandatory amount field.
Preconditions	HisabDo application is installed and the user is on the Dashboard.
Test Data	Valid receivable amount.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Add Receivable page. 3. Enter a valid amount. 4. Leave Category, Notes, Customer, Date & Time and Attachment fields empty. 5. Tap the Save Receivable button.
Expected Result	The receivable should be added successfully using only the mandatory amount field.
Actual Result	The receivable was added successfully without entering the optional fields.
Status	Pass
Priority	High

Test Case 2:

Attribute	Description
Test Case ID	TC-02
Module	Edit Profile
Test Scenario	Verify that the Edit Profile form displays Business/Shop Name as a mandatory field while Phone and Email are optional.
Preconditions	User is logged in and on the Edit Profile page.
Test Data	Business/Shop Name: Valid value.
Test Steps	1. Open the Edit Profile form from menu. 2. Observe the Business/Shop Name, Phone, Email, Save and Skip options. 3. Verify the field requirements.
Expected Result	Business/Shop Name should be mandatory, while Phone and Email should be optional. Save and Skip buttons should be displayed.
Actual Result	Business/Shop Name was mandatory, while Phone and Email were optional. Save and Skip buttons were displayed.
Status	Pass
Priority	High

Test Case 3:

Attribute	Description
Test Case ID	TC-03
Module	Edit Profile
Test Scenario	Verify that required-field validation is displayed when all Edit Profile fields are left empty.
Preconditions	User is on the Edit Profile form.
Test Data	All fields empty.
Test Steps	1. Open the Edit Profile form from menu. 2. Leave all fields empty. 3. Tap the Save button.
Expected Result	The system should display a validation message indicating that Business Name is required.
Actual Result	The validation message "Business name required" was displayed.
Status	Pass
Priority	Medium

Test Case 4:

Attribute	Description
Test Case ID	TC-04
Module	Receivable
Test Scenario	Verify that the system rejects a receivable transaction with an amount of zero.
Preconditions	User is on the Add Receivable page.
Test Data	Amount: 0
Test Steps	1. Open the Add Receivable page. 2. Enter 0 in the amount field. 3. Tap the Save Receivable button. 4. Open the Transactions page.
Expected Result	The system should reject a zero amount and display an appropriate validation message.
Actual Result	A receivable with an amount of 0 was saved successfully and displayed in Transactions.
Status	Fail
Priority	Medium

Test Case 5:

Attribute	Description
Test Case ID	TC-05
Module	Payable
Test Scenario	Verify that the system rejects a payable transaction with an amount of zero.
Preconditions	User is on the Add Payable page.
Test Data	Amount: 0
Test Steps	1. Open the Add Payable page. 2. Enter 0 in the amount field. 3. Tap the Save Payable button. 4. Open the Transactions page.
Expected Result	The system should reject a zero amount and display an appropriate validation message.
Actual Result	A payable with an amount of 0 was saved successfully and displayed in Transactions.
Status	Fail
Priority	High

Test Case 6:

Attribute	Description
Test Case ID	TC-06
Module	Receivable
Test Scenario	Verify that the system rejects a negative receivable amount.
Preconditions	User is on the Add Receivable page.
Test Data	Amount: -100
Test Steps	1. Open the Add Receivable page. 2. Enter -100 in the amount field. 3. Tap the Save Receivable button. 4. Open the Transactions page.
Expected Result	The system should reject the negative amount and display an appropriate validation message.
Actual Result	The negative receivable amount was saved successfully and displayed in Transactions.
Status	Fail
Priority	High

Test Case 7:

Attribute	Description
Test Case ID	TC-07
Module	Payable
Test Scenario	Verify that the system rejects a negative payable amount.
Preconditions	User is on the Add Payable page.
Test Data	Amount: -100
Test Steps	1. Open the Add Payable page. 2. Enter -100 in the amount field. 3. Tap the Save Payable button. 4. Open the Transactions page.
Expected Result	The system should reject the negative amount and display an appropriate validation message.
Actual Result	The negative payable amount was saved successfully and displayed in Transactions.
Status	Fail
Priority	High

Test Case 8:

Attribute	Description
Test Case ID	TC-08
Module	Transactions
Test Scenario	Verify that a transaction can be deleted by swiping the transaction bar to the left.
Preconditions	At least one transaction exists.
Test Data	Existing transaction.
Test Steps	1. Open the Transactions page. 2. Swipe a transaction bar to the left. 3. Observe the deletion confirmation. 4. Confirm the deletion.
Expected Result	A deletion confirmation should be displayed and the transaction should be deleted after confirmation.
Actual Result	The deletion confirmation was displayed and the transaction was successfully deleted after confirmation.
Status	Pass
Priority	High

Test Case 9:

Attribute	Description
Test Case ID	TC-09
Module	Transactions
Test Scenario	Verify that an existing transaction can be edited by swiping the transaction bar to the right.
Preconditions	At least one transaction exists.
Test Data	Existing receivable or payable transaction.
Test Steps	1. Open the Transactions page. 2. Swipe a transaction bar to the right. 3. Edit the transaction details. 4. Save the changes.
Expected Result	The selected transaction should open for editing and the updated information should be saved successfully.
Actual Result	The transaction opened for editing and was successfully updated.
Status	Pass
Priority	High

Test Case 10:

Attribute	Description
Test Case ID	TC-10
Module	Transactions
Test Scenario	Verify that the transaction search bar displays matching transactions correctly.
Preconditions	Existing transactions are available.
Test Data	Existing transaction name or relevant transaction information.
Test Steps	1. Open the Transactions page. 2. Tap the transaction search bar. 3. Enter a relevant search term. 4. Observe the search results.
Expected Result	The system should display the transaction matching the entered search term.
Actual Result	The transaction search bar worked correctly and displayed the relevant transaction.
Status	Pass
Priority	Medium

Test Case 11:

Attribute	Description
Test Case ID	TC-11
Module	Customers
Test Scenario	Verify that the customer search bar displays the relevant customer correctly.
Preconditions	At least one customer exists.
Test Data	Existing customer name.
Test Steps	1. Open the Customers page. 2. Tap the customer search bar. 3. Enter an existing customer name. 4. Observe the search results.
Expected Result	The system should display the customer matching the entered search term.
Actual Result	The customer search bar worked correctly and displayed the relevant customer.
Status	Pass
Priority	Medium

Test Case 12:

Attribute	Description
Test Case ID	TC-12
Module	Add Customer
Test Scenario	Verify that the phone and email fields validate incorrectly formatted data when entered, even though the fields are optional.
Preconditions	User is on the Add Customer page.
Test Data	Invalid phone number and invalid email address.
Test Steps	1. Open the Add Customer page. 2. Enter an invalid phone number. 3. Enter an incorrectly formatted email address. 4. Complete the remaining required information. 5. Tap Save.
Expected Result	The phone and email fields should be optional, but invalid formats should trigger appropriate validation messages.
Actual Result	The phone and email fields validated the entered formats correctly.
Status	Pass
Priority	High

Test Case 13:

Attribute	Description
Test Case ID	TC-13
Module	Transactions
Test Scenario	Verify that cancelling the transaction deletion keeps the transaction unchanged.
Preconditions	An existing transaction is available.
Test Data	Existing transaction.
Test Steps	1. Open the Transactions page. 2. Swipe a transaction to the left. 3. Tap Cancel on the deletion confirmation dialog.
Expected Result	The deletion should be cancelled and the transaction should remain in Transactions.
Actual Result	The deletion was cancelled successfully and the transaction remained in Transactions.
Status	Pass
Priority	High

Test Case 14:

Attribute	Description
Test Case ID	TC-14
Module	Transactions
Test Scenario	Verify the transaction search behavior when no matching transaction exists.
Preconditions	Transactions are available.
Test Data	Non-existing transaction name.
Test Steps	1. Open the Transactions page. 2. Enter a search term that does not match any transaction. 3. Observe the search results.
Expected Result	An appropriate no transaction found message should be displayed and no unrelated transactions should appear.
Actual Result	The appropriate no transaction found message was displayed when no matching transaction was found.
Status	Pass
Priority	Medium

Test Case 15:

Attribute	Description
Test Case ID	TC-15
Module	Customers
Test Scenario	Verify the customer search behavior when no matching customer exists.
Preconditions	Customers are available.
Test Data	Non-existing customer name.
Test Steps	1. Open the Customers page. 2. Search for a customer that does not exist. 3. Observe the search results.
Expected Result	An appropriate no contacts found message should be displayed.
Actual Result	The appropriate no contacts found message was displayed when no matching customer was found.
Status	Pass
Priority	Medium

Test Case 16:

Attribute	Description
Test Case ID	TC-16
Module	Customers
Test Scenario	Verify that the system prevents duplicate customer creation.
Preconditions	An existing customer is available.
Test Data	Same customer information as an existing customer.
Test Steps	1. Open the Add Customer page. 2. Enter the same customer information as an existing customer. 3. Tap Save.
Expected Result	The system should prevent duplicate customer creation and display an appropriate warning or validation message.
Actual Result	The system prevented duplicate customer creation and displayed an appropriate warning or validation message.
Status	Pass
Priority	High

Test Case 17:

Attribute	Description
Test Case ID	TC-17
Module	Receivable
Test Scenario	Verify that the system rejects an invalid amount format.
Preconditions	User is on the Add Receivable page.
Test Data	,,,,,----.....
Test Steps	1. Open the Add Receivable page. 2. Tap the amount field. 3. Enter ,,,,,----..... as the amount. 4. Observe the validation behavior.
Expected Result	The system should reject the invalid amount format and display an appropriate validation message.
Actual Result	The system rejected the invalid amount format and displayed an appropriate validation message "Enter valid amount".
Status	Pass
Priority	High

Test Case 18:

Attribute	Description
Test Case ID	TC-18
Module	Customers
Test Scenario	Verify that cancelling customer deletion keeps the customer contact unchanged.
Preconditions	An existing customer contact is available.
Test Data	Existing customer contact.
Test Steps	1. Open the Customers page. 2. Tap on 3 dots on existing contact. 3. Tap on Delete option. 4. Tap Cancel on the confirmation dialog.
Expected Result	The deletion should be cancelled and the customer should remain available.
Actual Result	The deletion was cancelled successfully and the customer contact remained available.
Status	Pass
Priority	High

Test Case 19:

Attribute	Description
Test Case ID	TC-19
Module	Transactions
Test Scenario	Verify that unsaved changes are not applied when cancelling transaction editing.
Preconditions	An existing transaction is available.
Test Data	Existing transaction with temporary changes.
Test Steps	1. Open the Transactions page. 2. Swipe a transaction to the right. 3. Modify the transaction information. 4. Exit without saving. 5. Reopen the transaction.
Expected Result	The transaction should retain its original information because the changes were not saved.
Actual Result	The transaction retained its original information after cancelling the edit.
Status	Pass
Priority	Medium

Test Case 20:

Attribute	Description
Test Case ID	TC-20
Module	Edit Profile
Test Scenario	Verify that the Edit Profile option is available from the application menu.
Preconditions	User is logged in and the application menu is accessible.
Test Data	N/A
Test Steps	1. Open the application menu. 2. Locate the Edit Profile option. 3. Tap Edit Profile.
Expected Result	The Edit Profile option should be available in the menu and should open the Edit Profile page.
Actual Result	The Edit Profile option was available in the menu and opened the profile section successfully.
Status	Pass
Priority	Medium

Website Test Cases

Test Case 1:

Attribute	Description
Test Case ID	TC-01
Module	Homepage
Test Scenario	Verify that the Download Free button on the homepage navigates the user to the appropriate app download page.
Preconditions	HisabDo website is accessible and the user is on the Homepage.
Test Data	N/A
Test Steps	1. Open the HisabDo website. 2. Locate the Download Free button. 3. Click the Download Free button. 4. Observe the resulting page or action.
Expected Result	The Download Free button should navigate the user to the appropriate HisabDo app download page.
Actual Result	The Download Free button navigated to the appropriate app download page successfully.
Status	Pass
Priority	High

Test Case 2:

Attribute	Description
Test Case ID	TC-02
Module	Homepage
Test Scenario	Verify that the Learn More button on the homepage navigates to the relevant App page.
Preconditions	HisabDo website is accessible and the user is on the Homepage.
Test Data	N/A
Test Steps	1. Open the HisabDo Homepage. 2. Locate the Learn More button. 3. Click the button. 4. Observe the resulting page.
Expected Result	The user should be navigated to the relevant HisabDo App page.
Actual Result	The Learn More button navigated to the relevant App page successfully.
Status	Pass
Priority	Medium

Test Case 3:

Attribute	Description
Test Case ID	TC-03
Module	Navigation
Test Scenario	Verify that the main navigation links redirect to their respective pages.
Preconditions	HisabDo website is accessible.
Test Data	Home, About, App, Founder, Leadership, Blog, FAQ, Careers and Contact links.
Test Steps	1. Open the HisabDo website. 2. Click the About link and observe the page. 3. Repeat the process for App, Founder, Leadership, Blog, FAQ, Careers and Contact.
Expected Result	Each navigation link should open its corresponding page without errors.
Actual Result	The navigation links opened their respective pages successfully.
Status	Pass
Priority	High

Test Case 4:

Attribute	Description
Test Case ID	TC-04
Module	Homepage
Test Scenario	Verify that the homepage displays the major product features correctly.
Preconditions	HisabDo website is accessible.
Test Data	Khata & Ledger, Customer Management, Analytics, PDF Export, Voice Entry and Backup & Restore.
Test Steps	1. Open the HisabDo Homepage. 2. Scroll to the Everything You Need section. 3. Observe the listed features. 4. Verify that the feature information is displayed correctly.
Expected Result	All major product features should be displayed clearly without missing or broken content.
Actual Result	The major product features were displayed correctly.
Status	Pass
Priority	Medium

Test Case 5:

Attribute	Description
Test Case ID	TC-05
Module	Homepage
Test Scenario	Verify that Download Now – Free button navigates to the HisabDo application download destination.
Preconditions	HisabDo website is accessible.
Test Data	Download Now – Free button
Test Steps	1. Open the HisabDo Homepage. 2. Scroll to the Available on Google Play section. 3. Click the Download Now – Free button. 4. Observe the resulting destination.
Expected Result	The Download Now – Free button should navigate to the appropriate Google Play application page.
Actual Result	The Download Now – Free button navigated to the appropriate application destination.
Status	Pass
Priority	High

Test Case 6:

Attribute	Description
Test Case ID	TC-06
Module	About
Test Scenario	Verify that the About page displays the main information about HisabDo correctly.
Preconditions	HisabDo website is accessible.
Test Data	About page content.
Test Steps	1. Open the HisabDo website. 2. Navigate to the About page. 3. Scroll through the page. 4. Verify the displayed sections.
Expected Result	The About page should display information about HisabDo, its purpose, features, target users and privacy approach correctly.
Actual Result	The About page displayed the expected information correctly.
Status	Pass
Priority	Medium

Test Case 7:

Attribute	Description
Test Case ID	TC-07
Module	About
Test Scenario	Verify that the Read Privacy Policy button on the About page navigates to the Privacy Policy page.
Preconditions	User is on the HisabDo About page.
Test Data	Read Privacy Policy button.
Test Steps	1. Open the About page. 2. Locate the Read Privacy Policy button. 3. Click the button. 4. Observe the resulting page.
Expected Result	The Privacy Policy page should open successfully.
Actual Result	The Privacy Policy page opened successfully.
Status	Pass
Priority	High

Test Case 8:

Attribute	Description
Test Case ID	TC-08
Module	About
Test Scenario	Verify that the Contact Support button navigates to the Contact page.
Preconditions	User is on the About page.
Test Data	Contact Support button.
Test Steps	1. Open the About page. 2. Locate the Contact Support button. 3. Click the button. 4. Observe the resulting page.
Expected Result	The user should be navigated to the appropriate contact page.
Actual Result	The Contact Support button navigated to the appropriate page successfully.
Status	Pass
Priority	Medium

Test Case 9:

Attribute	Description
Test Case ID	TC-09
Module	App
Test Scenario	Verify that the App page displays the Paper Khata vs. HisabDo comparison correctly.
Preconditions	HisabDo website is accessible.
Test Data	Paper Register and HisabDo comparison section.
Test Steps	1. Open the App page. 2. Scroll to the Paper Khata vs. HisabDo section. 3. Observe both comparison sections.
Expected Result	The Paper Register and HisabDo information should be displayed correctly without overlapping, missing or broken content.
Actual Result	The comparison information was displayed correctly.
Status	Pass
Priority	Medium

Test Case 10:

Attribute	Description
Test Case ID	TC-10
Module	App
Test Scenario	Verify that the language and currency information displayed on the App page is correct.
Preconditions	User is on the App page.
Test Data	Languages: Urdu, English, Hindi, Arabic and Roman Urdu. Currencies: PKR, USD and INR.
Test Steps	1. Open the App page. 2. Scroll to the language and currency sections. 3. Verify the displayed information.
Expected Result	The supported languages and currencies should be displayed correctly.
Actual Result	The supported languages and currencies were displayed correctly.
Status	Pass
Priority	Medium

Test Case 11:

Attribute	Description
Test Case ID	TC-11
Module	Homepage
Test Scenario	Verify that the homepage displays an appropriate response when a non-existing page is accessed.
Preconditions	HisabDo website is accessible.
Test Data	Invalid/non-existing URL path.
Test Steps	1. Open the HisabDo website. 2. Enter an invalid page path in the browser address bar. 3. Load the page.
Expected Result	The website should display an appropriate 404/error page instead of a broken or blank page.
Actual Result	The website displayed the appropriate response for the invalid page request.
Status	Pass
Priority	Medium

Test Case 12:

Attribute	Description
Test Case ID	TC-12
Module	Footer
Test Scenario	Verify that the footer navigation links are functional and redirect to the correct pages.
Preconditions	HisabDo website is accessible.
Test Data	Explore, Legal, Privacy Policy, Terms & Conditions, Contact, Disclaimer and Support links.
Test Steps	1. Open the HisabDo Homepage. 2. Scroll to the footer. 3. Click each available footer navigation link. 4. Observe the resulting pages.
Expected Result	Each footer link should redirect to its respective page without navigation errors.
Actual Result	The footer navigation links redirected to their respective pages successfully.
Status	Pass
Priority	High

Test Case 13:

Attribute	Description
Test Case ID	TC-13
Module	Blog
Test Scenario	Verify that the Read Article links for the latest blog posts open the corresponding articles.
Preconditions	HisabDo website is accessible.
Test Data	Available blog articles.
Test Steps	1. Open the HisabDo Homepage. 2. Scroll to the Recent Articles section. 3. Click Read Article for an available blog post. 4. Observe the resulting page.
Expected Result	The selected blog article should open successfully and display the correct article content.
Actual Result	The selected blog article opened successfully.
Status	Pass
Priority	Medium

Test Case 14:

Attribute	Description
Test Case ID	TC-14
Module	FAQ
Test Scenario	Verify that the FAQ page displays answers for the available frequently asked questions.
Preconditions	HisabDo website is accessible.
Test Data	FAQ questions related to free usage, offline functionality, reports and other available topics.
Test Steps	1. Open the HisabDo website. 2. Navigate to the FAQ page. 3. Select an available FAQ question. 4. Observe the displayed answer.
Expected Result	The selected FAQ should display its corresponding answer correctly.
Actual Result	The FAQ answer was displayed correctly.
Status	Pass
Priority	Medium

Test Case 15:

Attribute	Description
Test Case ID	TC-15
Module	Contact
Test Scenario	Verify that the support email link on the Contact section opens the user's email application correctly.
Preconditions	HisabDo website is accessible.
Test Data	support@hisabdo.app
Test Steps	1. Open the HisabDo website. 2. Navigate to the Contact section. 3. Click the support email address. 4. Observe the resulting action.
Expected Result	The email link should open the user's configured email application with the support email address populated as the recipient.
Actual Result	The support email link opened the configured email application successfully.
Status	Pass
Priority	Medium

Test Execution Summary

Metric	Result
