Mobile App Bug Reports

Bug Report 01

Attribute	Details
Bug ID	BUG-01
Test Case ID	TC-28
Module	Authentication
Bug Title	Account can be created using an already registered email address
Severity	High
Priority	High
Environment	HisabDo Mobile Application
Precondition	A confirmed account already exists with the email address.
Steps to Reproduce	1. Open the HisabDo application. 2. Navigate to the Create Account page. 3. Enter an already registered email address. 4. Enter a valid password. 5. Enter the matching confirm password. 6. Tap Create Account.
Expected Result	Account creation should be rejected and an appropriate message should indicate that the email address is already registered.
Actual Result	The app proceeded as if the account was newly created even though the email address was already registered.
Status	Open
Bug Type	Functional / Validation Defect

Bug Report 02

Attribute	Details
Bug ID	BUG-02
Test Case ID	TC-38
Module	Password Recovery
Bug Title	Password reset page fails to load from the reset link
Severity	High
Priority	High
Environment	HisabDo Mobile Application
Precondition	A registered account exists and a password reset link has been received through email.
Steps to Reproduce	1. Open the password reset email. 2. Tap the password reset link. 3. Observe the page that loads.
Expected Result	The password reset link should open the password recovery page successfully and allow the user to reset the password.
Actual Result	The reset page failed to load and the site was not available.
Status	Open
Bug Type	Functional / Availability Defect
