

HisabDo Internship Bootcamp

Software Quality Assurance (SQA) Track

Day 14 – Capstone Project

(QA Report)

Submitted By:

Eshal Kamal

Internship Duration:

60-Day Internship Bootcamp

Organization:

HisabDo

Submission Date:

14th August, 2026

Mobile App Test Cases

Test Case 1:

Attribute	Description
Test Case ID	TC-01
Module	Authentication
Test Scenario	Verify that a user can create an account using valid credentials.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Valid email, valid password, matching confirm password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Enter a valid email address in the Email field. 4. Enter a valid password that meets the required password criteria in the Password field. 5. Enter the same password in the Confirm Password field. 6. Review the entered account information to ensure all required fields are completed correctly. 7. Tap the Create Account button to submit the Account Creation form. 8. Observe the system response after submitting the account creation form.
Expected Result	The account should be created successfully using the provided valid credentials.
Actual Result	The account was created successfully using valid credentials.
Status	Pass
Priority	High

Test Case 2:

Attribute	Description
Test Case ID	TC-02
Module	Authentication
Test Scenario	Verify that account creation is rejected when the email field is empty.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Email: Empty; Password: Valid password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Leave the Email field empty. 4. Enter a valid password that meets the required password criteria.

	5. Enter the same password in the Confirm Password field. 6. Review the form and ensure the Email field remains empty. 7. Tap the Create Account button to submit the account creation form. 8. Observe the validation message displayed for the empty Email field.
Expected Result	Account creation should be rejected and an appropriate validation message should be displayed for the email field.
Actual Result	Account creation was rejected when the email field was empty and validation message was displayed.
Status	Pass
Priority	High

Test Case 3:

Attribute	Description
Test Case ID	TC-03
Module	Authentication
Test Scenario	Verify that account creation is rejected when the password and confirm password fields are empty.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Valid email; Password: Empty; Confirm Password: Empty.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Enter a valid email in the Email field. 4. Leave the Password field empty. 5. Leave the Confirm Password field empty. 6. Review the form and ensure both password fields remain empty. 7. Tap the Create Account button to submit the account creation form. 8. Observe the validation message displayed for the empty password fields.
Expected Result	Account creation should be rejected and validation messages should be displayed for the required password fields.
Actual Result	Account creation was rejected when both password fields were empty and validation messages were displayed.
Status	Pass
Priority	High

Test Case 4:

Attribute	Description
Test Case ID	TC-04
Module	Authentication
Test Scenario	Verify that account creation is rejected when both email and password fields are empty.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Email: Empty; Password: Empty; Confirm Password: Empty.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Leave the Email field empty. 4. Leave the Password field empty. 5. Leave the Confirm Password field empty. 6. Review the form and ensure all required fields remain empty. 7. Tap the Create Account button to submit the account creation form. 8. Observe the validation messages displayed for the empty required fields.
Expected Result	Account creation should be rejected and appropriate validation messages should be displayed.
Actual Result	Account creation was rejected when the required fields were empty and validation messages were displayed.
Status	Pass
Priority	High

Test Case 5:

Attribute	Description
Test Case ID	TC-05
Module	Authentication
Test Scenario	Verify that account creation is rejected when an invalid email format is entered.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Invalid email format, valid password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Enter an invalid email format in the Email field. 4. Enter a valid password that meets the required password criteria. 5. Enter the same password in the Confirm Password field. 6. Review the form and ensure all required fields are completed.

	7. Tap the Create Account button to submit the account creation form. 8. Observe the validation message displayed for the invalid Email field.
Expected Result	Account creation should be rejected and an email format validation message should be displayed.
Actual Result	Account creation was rejected for the invalid email format and validation message was displayed.
Status	Pass
Priority	High

Test Case 6:

Attribute	Description
Test Case ID	TC-06
Module	Authentication
Test Scenario	Verify that the password visibility option displays the entered password when enabled.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Password visibility icon.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Enter a password in the Password field. 4. Tap the password visibility icon. 5. Observe the Password field and the entered password.
Expected Result	The entered password should become visible when the visibility icon is enabled.
Actual Result	The password became visible successfully.
Status	Pass
Priority	Medium

Test Case 7:

Attribute	Description
Test Case ID	TC-07
Module	Authentication
Test Scenario	Verify that account creation is rejected when the password contains fewer than 6 characters.

Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Password: 5 characters or fewer.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Enter a valid email address in the Email field. 4. Enter a password containing fewer than 6 characters in the Password field. 5. Enter the same password in the Confirm Password field. 6. Review the form and ensure all required fields are completed. 7. Tap the Create Account button to submit the account creation form. 8. Observe the validation message displayed for the password that does not meet the minimum length requirement.
Expected Result	Account creation should be rejected and a password length validation message should be displayed.
Actual Result	Account creation was rejected when a password with fewer than 6 characters was entered and a password length validation message was displayed.
Status	Pass
Priority	High

Test Case 8:

Attribute	Description
Test Case ID	TC-08
Module	Authentication
Test Scenario	Verify that account creation is rejected when an already registered email address is used.
Preconditions	The email address is already registered and confirmed in the HisabDo application.
Test Data	Existing registered email address, valid password, matching confirm password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Enter an already registered email address in the Email field. 4. Enter a valid password that meets the required password criteria. 5. Enter the same password in the Confirm Password field. 6. Review the form and ensure all required fields are completed correctly. 7. Tap the Create Account button to submit the account creation form. 8. Observe the validation message displayed for the already registered email address.
Expected Result	Account creation should be rejected and an appropriate message should indicate that the email address is already registered.

Actual Result	The account creation was accepted successfully using an already registered and confirmed email address.
Status	Fail
Priority	High

Test Case 9:

Attribute	Description
Test Case ID	TC-09
Module	Authentication
Test Scenario	Verify that a registered user can sign in using valid credentials.
Preconditions	A valid HisabDo account exists and the Sign In page is accessible.
Test Data	Registered email and correct password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Enter the registered email address in the Email field. 4. Enter the correct password in the Password field. 5. Review the entered login credentials to ensure they are correct. 6. Tap the Sign In button to submit the login form. 7. Wait for the authentication process to complete. 8. Observe the resulting screen after successful sign-in.
Expected Result	The user should be authenticated successfully and allowed to access the application.
Actual Result	The user signed in successfully using valid credentials.
Status	Pass
Priority	High

Test Case 10:

Attribute	Description
Test Case ID	TC-10
Module	Authentication
Test Scenario	Verify that sign in is rejected when the email field is empty.
Preconditions	Sign In page is accessible.
Test Data	Email: Empty; Password: Valid password.
Test Steps	1. Open the HisabDo application.

	2. Navigate to the Sign In page from the welcome screen. 3. Leave the Email field empty. 4. Enter a valid password in the Password field. 5. Review the form and ensure the Email field remains empty. 6. Tap the Sign In button to submit the login form. 7. Observe the validation message displayed for the empty Email field.
Expected Result	Sign in should be rejected and an appropriate email validation message should be displayed.
Actual Result	Sign in was rejected when the email field was empty and a validation message was displayed.
Status	Pass
Priority	High

Test Case 11:

Attribute	Description
Test Case ID	TC-11
Module	Authentication
Test Scenario	Verify that sign in is rejected when the password field is empty.
Preconditions	Sign In page is accessible.
Test Data	Email: Registered email; Password: Empty.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Enter a registered email address in the Email field. 4. Leave the Password field empty. 5. Review the form and ensure the Password field remains empty. 6. Tap the Sign In button to submit the login form. 7. Observe the validation message displayed for the empty Password field.
Expected Result	Sign in should be rejected and an appropriate password validation message should be displayed.
Actual Result	Sign in was rejected when the password field was empty and a password validation message was displayed.
Status	Pass
Priority	High

Test Case 12:

Attribute	Description
Test Case ID	TC-12
Module	Authentication
Test Scenario	Verify that sign in is rejected when both email and password fields are empty.
Preconditions	Sign In page is accessible.
Test Data	Email: Empty; Password: Empty.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Leave the Email field empty. 4. Leave the Password field empty. 5. Review the form and ensure both fields remain empty. 6. Tap the Sign In button to submit the login form. 7. Observe the validation messages displayed for the empty Email and Password fields.
Expected Result	Sign in should be rejected and validation messages should be displayed for the required fields.
Actual Result	Sign in was rejected when both fields were empty and a validation message was displayed.
Status	Pass
Priority	High

Test Case 13:

Attribute	Description
Test Case ID	TC-13
Module	Authentication
Test Scenario	Verify that sign in is rejected when an invalid email format is entered.
Preconditions	Sign In page is accessible.
Test Data	Email: Invalid format; Password: Valid Password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Enter an invalid email format in the Email field. 4. Enter a password in the Password field. 5. Review the form and ensure all required fields are completed. 6. Tap the Sign In button to submit the login form. 7. Observe the validation message displayed for the invalid Email field.
Expected Result	Sign in should be rejected and an appropriate email format validation message should be displayed.

Actual Result	Sign in was rejected for the invalid email format and a validation message was displayed.
Status	Pass
Priority	High

Test Case 14:

Attribute	Description
Test Case ID	TC-14
Module	Authentication
Test Scenario	Verify that the password visibility icon displays the entered password on the Sign In page.
Preconditions	Sign In page is accessible.
Test Data	Password Visibility Icon.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Enter an email address in the Email field. 4. Enter a password in the Password field. 5. Tap the password visibility icon. 6. Observe the Password field and the entered password.
Expected Result	The entered password should become visible when the visibility icon is tapped.
Actual Result	The password became visible successfully.
Status	Pass
Priority	Medium

Test Case 15:

Attribute	Description
Test Case ID	TC-15
Module	Authentication
Test Scenario	Verify that sign in is rejected when an incorrect password is entered for a valid email.
Preconditions	A registered account exists and the Sign In page is accessible.
Test Data	Registered email and invalid password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Enter a registered email address in the Email field.

	4. Enter an incorrect password in the Password field. 5. Review the form and ensure all required fields are completed. 6. Tap the Sign In button to submit the login form. 7. Observe the error message displayed for the incorrect password.
Expected Result	Sign in should be rejected and an appropriate authentication error message should be displayed.
Actual Result	Sign in was rejected when an invalid password was entered and an authentication error message was displayed.
Status	Pass
Priority	High

Test Case 16:

Attribute	Description
Test Case ID	TC-16
Module	Authentication
Test Scenario	Verify that a signed-in user can log out successfully.
Preconditions	User is successfully signed in to the HisabDo application.
Test Data	Logout button
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Enter the registered email address in the Email field. 4. Enter the correct password in the Password field. 5. Tap the Sign In button to submit the login form. 6. Wait for the authentication process to complete. 7. Open the Account page from the bottom navigation bar. 8. Locate the Logout button on the Account page. 9. Tap the Logout button. 10. Observe the resulting screen after logout.
Expected Result	The user should be logged out successfully and redirected to the appropriate authentication or welcome screen.
Actual Result	The user logged out successfully and was redirected to welcome screen.
Status	Pass
Priority	High

Test Case 17:

Attribute	Description
Test Case ID	TC-17
Module	Password Recovery
Test Scenario	Verify that a password reset link can be requested using a registered email address.
Preconditions	A registered account exists and the Sign In page is accessible.
Test Data	Forgot password link.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Enter the registered email address in the Email field. 4. Tap the Forgot Password option. 5. Observe the resulting screen and password reset instructions. 6. Check the registered email account for the password reset email.
Expected Result	A password reset link should be sent to the registered email address.
Actual Result	The password reset link was sent successfully through email.
Status	Pass
Priority	High

Test Case 18:

Attribute	Description
Test Case ID	TC-18
Module	Password Recovery
Test Scenario	Verify that the Forgot Password link in email loads the password recovery page successfully.
Preconditions	HisabDo application is installed and the Sign In page is accessible.
Test Data	Forgot password link in email
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Tap the Forgot Password option. 4. Observe the resulting screen and password reset instructions. 5. Check the registered email account for the password reset email. 6. Tap the password reset link provided in the email. 7. Observe the password recovery page displayed after opening the reset link.
Expected Result	The password recovery page should load successfully and allow the user to proceed with password recovery.
Actual Result	The password recovery page did not load and the site was not available.

Status	Fail
Priority	High

Test Case 19:

Attribute	Description
Test Case ID	TC-19
Module	Registration
Test Scenario	Verify that the registration form displays an error message when the password and confirm password fields contain different values.
Preconditions	HisabDo application is installed and accessible and the user is on the Registration screen.
Test Data	Password: ***** Confirm Password: *****
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page from the welcome screen. 3. Enter a valid email address in the Email field. 4. Enter a password in the Password field. 5. Enter a different password in the Confirm Password field. 6. Review the form and ensure all required fields are completed. 7. Tap the Create Account button to submit the account creation form. 8. Observe the validation message displayed for the mismatched passwords.
Expected Result	Registration should not proceed and an error message indicating that the passwords do not match should be displayed.
Actual Result	The "Passwords do not match" message was displayed and registration was not completed.
Status	Pass
Priority	Medium

Test Case 20:

Attribute	Description
Test Case ID	TC-20
Module	Account Management
Test Scenario	Verify that a user can delete an existing account and cannot sign in using the deleted account credentials.
Preconditions	User has an existing HisabDo account and is signed in.

Test Data	Existing account credentials.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page from the welcome screen. 3. Enter the registered email address in the Email field. 4. Enter the correct password in the Password field. 5. Tap the Sign In button to submit the login form. 6. Wait for the authentication process to complete. 7. Navigate to the Settings page from the Menu. 8. Locate the Delete Account option. 9. Tap the Delete Account option. 10. Confirm the account deletion when prompted. 11. Wait for the account deletion process to complete. 12. Return to the Sign In page. 13. Enter the credentials of the deleted account. 14. Tap the Sign In button to submit the login form. 15. Observe the error message displayed for the deleted account.
Expected Result	The account should be deleted successfully and subsequent sign-in attempts using the deleted account credentials should be rejected.
Actual Result	The account was deleted successfully. Sign in using the deleted account credentials was rejected with an "Invalid credentials" error message.
Status	Pass
Priority	High

Website Test Cases

Test Case 1:

Attribute	Description
Test Case ID	TC-01
Module	Navigation
Test Scenario	Verify that the Get App button opens the HisabDo application listing on Google Play.
Preconditions	The HisabDo website is accessible.
Test Data	Get App button
Test Steps	1. Open the HisabDo website. 2. Locate the Get App button in the navigation bar. 3. Click the Get App button. 4. Wait for the linked page or destination to load. 5. Observe the page that opens. 6. Verify that the opened page or destination is related to downloading or accessing the HisabDo application.
Expected Result	The Get App button should redirect the user to the HisabDo application page on Google Play.
Actual Result	The Get App button redirected the user to the HisabDo application page on Google Play.
Status	Pass
Priority	High

Test Case 2:

Attribute	Description
Test Case ID	TC-02
Module	FAQ
Test Scenario	Verify that clicking an FAQ question displays its corresponding answer.
Preconditions	The FAQ page is accessible.
Test Data	Any FAQ question
Test Steps	1. Open the HisabDo website. 2. Navigate to the FAQ page from the navigation bar. 3. Locate an FAQ question in the Frequently Asked Questions section. 4. Click the selected FAQ question. 5. Wait for the FAQ section to respond.

	6. Observe the selected FAQ question and its corresponding answer. 7. Verify that the answer is displayed correctly for the selected question.
Expected Result	The selected FAQ question should expand and display its corresponding answer.
Actual Result	The selected FAQ question expanded and displayed its corresponding answer.
Status	Pass
Priority	High

Test Case 3:

Attribute	Description
Test Case ID	TC-03
Module	FAQ
Test Scenario	Verify that the answer displayed for an FAQ question matches the selected question.
Preconditions	The FAQ page is accessible and an FAQ question is available.
Test Data	FAQ question: "Is HisabDo free to use?"
Test Steps	1. Open the HisabDo website. 2. Navigate to the FAQ page from the navigation bar. 3. Locate the "Is HisabDo free to use?" question in the Frequently Asked Questions section. 4. Click the "Is HisabDo free to use?" question. 5. Wait for the FAQ section to expand. 6. Read the answer displayed for the selected question. 7. Verify that the displayed answer corresponds to the selected question.
Expected Result	The answer should explain that HisabDo is free to download and use and that core features are available at no cost.
Actual Result	The FAQ displayed the correct answer regarding HisabDo being free to use.
Status	Pass
Priority	Medium

Test Case 4:

Attribute	Description
Test Case ID	TC-04
Module	FAQ
Test Scenario	Verify that the expanded FAQ answer closes when the cross icon is clicked.
Preconditions	The FAQ page is accessible and an FAQ question is expanded.
Test Data	Expanded FAQ question
Test Steps	1. Open the HisabDo website. 2. Navigate to the FAQ page from the navigation bar. 3. Locate an FAQ question in the Frequently Asked Questions section. 4. Click the FAQ question to expand the section. 5. Locate the cross/close icon displayed for the expanded question. 6. Click the cross/close icon. 7. Observe the FAQ section. 8. Verify that the answer is hidden and the FAQ question returns to its collapsed state.
Expected Result	The answer should close and the FAQ question should return to its collapsed state.
Actual Result	The answer closed successfully and the FAQ question returned to its collapsed state.
Status	Pass
Priority	Medium

Test Case 5:

Attribute	Description
Test Case ID	TC-05
Module	FAQ
Test Scenario	Verify that the FAQ page contains the provided General, Features, Language & Currency, Data & Backup, Privacy & Security, Device & Platform and Support sections.
Preconditions	The FAQ page is accessible.
Test Data	FAQ categories and questions
Test Steps	1. Open the HisabDo website. 2. Navigate to the FAQ page from the navigation bar. 3. Scroll through the Frequently Asked Questions section.

	4. Observe the available FAQ categories, including General, Features, Language & Currency, Data & Backup, Privacy & Security, Device & Platform, and Support. 5. Review the questions listed under each category. 6. Verify that the FAQ categories and questions are displayed correctly and are accessible while scrolling.
Expected Result	The FAQ page should display the available categories and their related questions correctly.
Actual Result	The FAQ categories and questions were displayed correctly.
Status	Pass
Priority	Medium

Test Case 6:

Attribute	Description
Test Case ID	TC-06
Module	Careers
Test Scenario	Verify that the Careers page displays information about the 60-Day Remote Internship Bootcamp.
Preconditions	The HisabDo website is accessible and the Careers page can be opened.
Test Data	Internship information
Test Steps	1. Open the HisabDo website. 2. Navigate to the Careers page from the navigation bar. 3. Scroll through the Careers page until the Internships section is visible. 4. Locate the Internships section. 5. Observe the available internship details, including the description, requirements and application information. 6. Verify that the internship details are displayed correctly and are readable.
Expected Result	The page should display the internship duration, start date, mode and eligible applicants correctly.
Actual Result	The internship information was displayed correctly.
Status	Pass
Priority	High

Test Case 7:

Attribute	Description
Test Case ID	TC-07
Module	Careers
Test Scenario	Verify that users can access the internship registration form through Register Now.
Preconditions	The Careers page is accessible.
Test Data	Register Now button
Test Steps	1. Open the HisabDo website. 2. Navigate to the Careers page from the navigation bar. 3. Locate the 60-Day Remote Internship Bootcamp section. 4. Review the internship information provided in the section. 5. Locate the Register Now button. 6. Click the Register Now button. 7. Wait for the linked page or registration form to load. 8. Observe the page that opens. 9. Verify that the opened page is related to the internship registration.
Expected Result	The Register Now button should open the internship registration form successfully.
Actual Result	The Register Now button opened the internship registration process successfully.
Status	Pass
Priority	High

Test Case 8:

Attribute	Description
Test Case ID	TC-08
Module	Careers
Test Scenario	Verify that View Details displays detailed information for an available job.
Preconditions	The Careers page is accessible and an open job is displayed.
Test Data	View Details button for an available job
Test Steps	1. Open the HisabDo website. 2. Navigate to the Careers page from the navigation bar. 3. Locate an available Open Role in the careers section. 4. Review the job title and basic information displayed for the role. 5. Click the View Details button associated with the selected Open Role.

	6. Wait for the job details page or section to load. 7. Observe the job information displayed for the selected role. 8. Verify that the displayed information corresponds to the selected Open Role.
Expected Result	Detailed information about the selected job should be displayed successfully.
Actual Result	The selected job details were displayed successfully.
Status	Pass
Priority	High

Test Case 9:

Attribute	Description
Test Case ID	TC-09
Module	Careers
Test Scenario	Verify that a user can access the application process for an available position.
Preconditions	The Careers page is accessible and an available job is displayed.
Test Data	Apply Now button
Test Steps	1. Open the HisabDo website. 2. Navigate to the Careers page from the navigation bar. 3. Locate an available job in the Open Roles section. 4. Review the job information displayed for the selected position. 5. Click the Apply Now button associated with the selected job. 6. Wait for the application page or linked destination to load. 7. Observe the result after selecting Apply Now. 8. Verify that the opened page or destination is related to applying for the selected job.
Expected Result	The Apply Now button should open the appropriate application process successfully.
Actual Result	The Apply Now button opened the appropriate application process successfully.
Status	Pass
Priority	High

Test Case 10:

Attribute	Description
Test Case ID	TC-10
Module	Careers
Test Scenario	Verify that open roles display job title, department, employment type, location and closing date.
Preconditions	The Careers page is accessible.
Test Data	Open Roles section
Test Steps	1. Open the HisabDo website. 2. Navigate to the Careers page from the navigation bar. 3. Locate the Open Roles section on the Careers page. 4. Scroll through the available job listings. 5. Observe the job titles and information displayed for each available role. 6. Verify that the job listings and their related information are displayed correctly and are readable.
Expected Result	Each available job should display its relevant role information correctly.
Actual Result	The available job roles and their relevant information were displayed correctly.
Status	Pass
Priority	Medium

Test Case 11:

Attribute	Description
Test Case ID	TC-11
Module	Footer
Test Scenario	Verify that all available social media buttons in the footer open their corresponding HisabDo social accounts.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Footer social media icons
Test Steps	1. Open the HisabDo website. 2. Scroll to the footer section of the website. 3. Locate the available social media icons or social media links. 4. Click the first available social media icon. 5. Wait for the linked social media page to load. 6. Observe the destination and verify that it opens the corresponding HisabDo social media profile. 7. Return to the HisabDo website.

	8. Repeat the same steps for each available social media icon. 9. Verify that each social media icon redirects to its corresponding social media profile.
Expected Result	Each social media icon should redirect to the corresponding HisabDo social media account.
Actual Result	All social media icons redirected to their respective HisabDo social accounts successfully.
Status	Pass
Priority	Medium

Test Case 12:

Attribute	Description
Test Case ID	TC-12
Module	Footer
Test Scenario	Verify that the support email link opens Gmail with the HisabDo support address.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	support@hisabdo.app
Test Steps	1. Open the HisabDo website. 2. Scroll to the footer section of the website. 3. Locate the support email address displayed in the Contact section. 4. Click the support email address. 5. Wait for the default email application to open. 6. Observe the email application and the recipient field. 7. Verify that the support email address is automatically populated as the recipient.
Expected Result	The email application should open with support@hisabdo.app as the recipient.
Actual Result	Gmail opened successfully with support@hisabdo.app as the recipient.
Status	Pass
Priority	Medium

Test Case 13:

Attribute	Description
Test Case ID	TC-13
Module	Footer
Test Scenario	Verify that the location icon with Pakistan link in the Contact section redirect the user to Google Maps.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Pakistan location link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the location icon with the Pakistan link under the Contact section. 4. Click the Pakistan link. 5. Wait for the linked page or map location to load. 6. Observe the resulting page or destination. 7. Verify that the link redirects to the correct location or map destination associated with Pakistan.
Expected Result	The Pakistan link should redirect the user to Google Maps successfully.
Actual Result	The Pakistan link redirected the user to Google Maps successfully.
Status	Pass
Priority	Medium

Test Case 14:

Attribute	Description
Test Case ID	TC-14
Module	Footer
Test Scenario	Verify that the Google Play icon with Google Play link in the Contact section redirect the user to the HisabDo application page on Google Play.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Google Play link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Google Play icon with the Google Play link under the Contact section. 4. Click the Google Play link. 5. Wait for the linked page to load. 6. Observe the resulting page or destination.

	7. Verify that the link redirects to the HisabDo application page on Google Play.
Expected Result	The Google Play link should redirect the user to the HisabDo application page on Google Play successfully.
Actual Result	The Google Play link redirected the user to the HisabDo application page on Google Play successfully.
Status	Pass
Priority	High

Test Case 15:

Attribute	Description
Test Case ID	TC-15
Module	Careers
Test Scenario	Verify that the Contact Us button in the "Want to Work With Us?" section redirects the user to the Contact page.
Preconditions	The Careers page is accessible.
Test Data	Contact Us button
Test Steps	1. Open the HisabDo website. 2. Navigate to the Careers page from the navigation bar. 3. Scroll through the Careers page until the "Want to Work With Us?" section is visible. 4. Locate the Contact Us button in the section. 5. Click the Contact Us button. 6. Wait for the linked page to load. 7. Observe the page that opens. 8. Verify that the opened page is the HisabDo Contact page.
Expected Result	The Contact Us button should redirect the user to the Contact page successfully.
Actual Result	The Contact Us button redirected the user to the Contact page successfully.
Status	Pass
Priority	Medium

Test Execution Summary

QA Metric	Result
