HisabDo

Submission Date:

13th August, 2026

Mobile App Test Cases

Test Case 1:

Attribute	Description
Test Case ID	TC-01
Module	Authentication
Test Scenario	Verify that a user can create an account using valid credentials.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Valid email, valid password, matching confirm password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Create Account page. 3. Enter a valid email address. 4. Enter a valid password. 5. Enter the matching confirm password. 6. Submit the Account Creation form.
Expected Result	The account should be created successfully using the provided valid credentials.
Actual Result	The account was created successfully using valid credentials.
Status	Pass
Priority	High

Test Case 2:

Attribute	Description
Test Case ID	TC-02
Module	Authentication
Test Scenario	Verify that account creation is rejected when the email field is empty.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Email: Empty; Password: Valid password.
Test Steps	1. Open the Create Account page. 2. Leave the email field empty. 3. Enter a valid password. 4. Enter the matching confirm password. 5. Submit the account creation form.
Expected Result	Account creation should be rejected and an appropriate validation message should be displayed for the email field.
Actual Result	Account creation was rejected when the email field was empty and validation message was displayed.

Status	Pass
Priority	High

Test Case 3:

Attribute	Description
Test Case ID	TC-03
Module	Authentication
Test Scenario	Verify that account creation is rejected when the password and confirm password fields are empty.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Valid email; Password: Empty; Confirm Password: Empty.
Test Steps	1. Open the Create Account page. 2. Enter a valid email address. 3. Leave the password field empty. 4. Leave the confirm password field empty. 5. Submit the account creation form.
Expected Result	Account creation should be rejected and validation messages should be displayed for the required password fields.
Actual Result	Account creation was rejected when both password fields were empty and validation messages were displayed.
Status	Pass
Priority	High

Test Case 4:

Attribute	Description
Test Case ID	TC-04
Module	Authentication
Test Scenario	Verify that account creation is rejected when both email and password fields are empty.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Email: Empty; Password: Empty; Confirm Password: Empty.
Test Steps	1. Open the Create Account page. 2. Leave the email field empty. 3. Leave the password field empty. 4. Leave the confirm password field empty.

	5. Submit the account creation form.
Expected Result	Account creation should be rejected and appropriate validation messages should be displayed.
Actual Result	Account creation was rejected when the required fields were empty and validation messages were displayed.
Status	Pass
Priority	High

Test Case 5:

Attribute	Description
Test Case ID	TC-05
Module	Authentication
Test Scenario	Verify that account creation is rejected when an invalid email format is entered.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Invalid email format, valid password.
Test Steps	1. Open the Create Account page. 2. Enter an invalid email format. 3. Enter a valid password. 4. Enter the matching confirm password. 5. Submit the account creation form.
Expected Result	Account creation should be rejected and an email format validation message should be displayed.
Actual Result	Account creation was rejected for the invalid email format and validation message was displayed.
Status	Pass
Priority	High

Test Case 6:

Attribute	Description
Test Case ID	TC-06
Module	Authentication
Test Scenario	Verify that the password visibility option displays the entered password when enabled.
Preconditions	HisabDo application is installed and the Create Account page is accessible.

Test Data	Password visibility icon.
Test Steps	1. Open the Create Account page. 2. Enter a password in the password field. 3. Tap the password visibility icon. 4. Observe the password field.
Expected Result	The entered password should become visible when the visibility icon is enabled.
Actual Result	The password became visible successfully.
Status	Pass
Priority	Medium

Test Case 7:

Attribute	Description
Test Case ID	TC-07
Module	Authentication
Test Scenario	Verify that account creation is rejected when the password contains fewer than 6 characters.
Preconditions	HisabDo application is installed and the Create Account page is accessible.
Test Data	Password: 5 characters or fewer.
Test Steps	1. Open the Create Account page. 2. Enter a valid email address. 3. Enter a password containing fewer than 6 characters. 4. Enter the matching confirm password. 5. Submit the Account Creation form.
Expected Result	Account creation should be rejected and a password length validation message should be displayed.
Actual Result	Account creation was rejected when a password with fewer than 6 characters was entered and a password length validation message was displayed.
Status	Pass
Priority	High

Test Case 8:

Attribute	Description
Test Case ID	TC-08
Module	Menu

Test Scenario	Verify that the menu slider opens and displays all available navigation options.
Preconditions	User is on the application dashboard.
Test Data	Dashboard menu
Test Steps	1. Launch the application. 2. Continue as Guest if required. 3. Locate the hamburger icon on dashboard. 4. Tap the icon. 5. Review the displayed options.
Expected Result	The menu should open and display Dashboard, Receivable, Payable, Transactions, Customers, Add Customer, Reports, Calculator, Settings, Help, Contact Us and Edit Profile options.
Actual Result	The menu slider opened successfully and displayed the listed navigation options.
Status	Pass
Priority	High

Test Case 9:

Attribute	Description
Test Case ID	TC-09
Module	Authentication
Test Scenario	Verify that a registered user can sign in using valid credentials.
Preconditions	A valid HisabDo account exists and the Sign In page is accessible.
Test Data	Registered email and correct password.
Test Steps	1. Open the HisabDo application. 2. Navigate to the Sign In page. 3. Enter the registered email address. 4. Enter the correct password. 5. Tap Sign In. 6. Observe the resulting screen.
Expected Result	The user should be authenticated successfully and allowed to access the application.
Actual Result	The user signed in successfully using valid credentials.
Status	Pass
Priority	High

Test Case 10:

Attribute	Description
Test Case ID	TC-10
Module	Authentication
Test Scenario	Verify that sign in is rejected when the email field is empty.
Preconditions	Sign In page is accessible.
Test Data	Email: Empty; Password: Valid password.
Test Steps	1. Open the Sign In page. 2. Leave the email field empty. 3. Enter a valid password. 4. Tap Sign In.
Expected Result	Sign in should be rejected and an appropriate email validation message should be displayed.
Actual Result	Sign in was rejected when the email field was empty and a validation message was displayed.
Status	Pass
Priority	High

Test Case 11:

Attribute	Description
Test Case ID	TC-11
Module	Authentication
Test Scenario	Verify that sign in is rejected when the password field is empty.
Preconditions	Sign In page is accessible.
Test Data	Email: Registered email; Password: Empty.
Test Steps	1. Open the Sign In page. 2. Enter a registered email address. 3. Leave the password field empty. 4. Tap Sign In.
Expected Result	Sign in should be rejected and an appropriate password validation message should be displayed.
Actual Result	Sign in was rejected when the password field was empty and a password validation message was displayed.
Status	Pass
Priority	High

Test Case 12:

Attribute	Description
Test Case ID	TC-12
Module	Authentication
Test Scenario	Verify that sign in is rejected when both email and password fields are empty.
Preconditions	Sign In page is accessible.
Test Data	Email: Empty; Password: Empty.
Test Steps	1. Open the Sign In page. 2. Leave the email field empty. 3. Leave the password field empty. 4. Tap Sign In.
Expected Result	Sign in should be rejected and validation messages should be displayed for the required fields.
Actual Result	Sign in was rejected when both fields were empty and a validation message was displayed.
Status	Pass
Priority	High

Test Case 13:

Attribute	Description
Test Case ID	TC-13
Module	Authentication
Test Scenario	Verify that sign in is rejected when an invalid email format is entered.
Preconditions	Sign In page is accessible.
Test Data	Email: Invalid format; Password: Valid Password.
Test Steps	1. Open the Sign In page. 2. Enter an invalid email format. 3. Enter a password. 4. Tap Sign In.
Expected Result	Sign in should be rejected and an appropriate email format validation message should be displayed.
Actual Result	Sign in was rejected for the invalid email format and a validation message was displayed.
Status	Pass
Priority	High

Test Case 14:

Attribute	Description
Test Case ID	TC-14
Module	Authentication
Test Scenario	Verify that the password visibility option displays the entered password on the Sign In page.
Preconditions	Sign In page is accessible.
Test Data	Password Visibility Icon.
Test Steps	1. Open the Sign In page. 2. Enter an Email. 3. Enter a password. 4. Tap the password visibility icon. 5. Observe the password field.
Expected Result	The entered password should become visible when the visibility option is enabled.
Actual Result	The password became visible successfully.
Status	Pass
Priority	Medium

Test Case 15:

Attribute	Description
Test Case ID	TC-15
Module	Authentication
Test Scenario	Verify that sign in is rejected when an incorrect password is entered for a valid email.
Preconditions	A registered account exists and the Sign In page is accessible.
Test Data	Registered email and invalid password.
Test Steps	1. Open the Sign In page. 2. Enter a registered email address. 3. Enter an incorrect password. 4. Tap Sign In.
Expected Result	Sign in should be rejected and an appropriate authentication error message should be displayed.
Actual Result	Sign in was rejected when an invalid password was entered and an authentication error message was displayed.
Status	Pass
Priority	High

Test Case 16:

Attribute	Description
Test Case ID	TC-16
Module	Authentication
Test Scenario	Verify that a signed-in user can log out successfully.
Preconditions	User is successfully signed in to the HisabDo application.
Test Data	Logout button
Test Steps	1. Sign in using valid credentials. 2. Open the Account page from bottom navbar. 3. Locate the Logout button. 4. Tap Logout. 5. Observe the resulting screen.
Expected Result	The user should be logged out successfully and redirected to the appropriate authentication or welcome screen.
Actual Result	The user logged out successfully and was redirected to welcome screen.
Status	Pass
Priority	High

Test Case 17:

Attribute	Description
Test Case ID	TC-17
Module	Password Recovery
Test Scenario	Verify that a password reset link can be requested using a registered email address.
Preconditions	A registered account exists and the Sign In page is accessible.
Test Data	Forgot password link.
Test Steps	1. Open the Sign In page. 2. Enter the registered email address. 3. Tap Forgot Password. 4. Observe the screen 5. Check the registered email account.
Expected Result	A password reset link should be sent to the registered email address.
Actual Result	The password reset link was sent successfully through email.
Status	Pass
Priority	High

Test Case 18:

Attribute	Description
Test Case ID	TC-18
Module	Guest Access
Test Scenario	Verify that Continue as Guest allows the user to access the application dashboard without signing in.
Preconditions	HisabDo application is installed and the splash screen is displayed.
Test Data	Continue as Guest button
Test Steps	1. Launch the HisabDo application. 2. Wait for the splash screen to appear. 3. Move Next to Welcome screen. 4. Locate Continue as Guest the button. 5. Tap the Continue as Guest button. 6. Observe the displayed page.
Expected Result	The user should be allowed to continue without authentication and should be redirected to the application dashboard.
Actual Result	Continue as Guest redirected the user to the application dashboard successfully.
Status	Pass
Priority	High

Test Case 19:

Attribute	Description
Test Case ID	TC-19
Module	Dashboard
Test Scenario	Verify that the Add button on the dashboard opens the Add transaction page with receivable and payable options.
Preconditions	User has successfully entered the application and the dashboard is displayed.
Test Data	+ Add button
Test Steps	1. Open the HisabDo application. 2. Continue as Guest if required. 3. Locate + Add button on the dashboard. 4. Tap the button. 5. Observe the resulting page.
Expected Result	The user should be able to open the Add Transaction (Receivable/Payable) page
Actual Result	The button opened the Add Transaction (Receivable/Payable) page successfully.
Status	Pass

Priority	High
-----------------	------

Test Case 20:

Attribute	Description
Test Case ID	TC-20
Module	Account Management
Test Scenario	Verify that a user can delete an existing account and cannot sign in using the deleted account credentials.
Preconditions	User has an existing HisabDo account and is signed in.
Test Data	Existing account credentials.
Test Steps	1. Sign in to the HisabDo application. 2. Navigate to the settings from Menu. 3. Select the Delete Account option. 4. Confirm account deletion. 5. Return to the Sign In page. 6. Enter the credentials of the deleted account. 7. Tap Sign In.
Expected Result	The account should be deleted successfully and subsequent sign-in attempts using the deleted account credentials should be rejected.
Actual Result	The account was deleted successfully. Sign in using the deleted account credentials was rejected with an "Invalid credentials" error message.
Status	Pass
Priority	High

Website Test Cases

Test Case 1:

Attribute	Description
Test Case ID	TC-01
Module	Footer
Test Scenario	Verify that the Privacy Policy link in the footer redirects the user to the Privacy Policy page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Privacy Policy footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Privacy Policy link under the Legal section. 4. Click Privacy Policy. 5. Observe the page that loads.
Expected Result	The Privacy Policy link should redirect the user to the Privacy Policy page successfully.
Actual Result	The Privacy Policy link redirected the user to the Privacy Policy page successfully.
Status	Pass
Priority	High

Test Case 2:

Attribute	Description
Test Case ID	TC-02
Module	Footer
Test Scenario	Verify that the Terms & Conditions link in the footer redirects the user to the Terms & Conditions page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Terms & Conditions footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Terms & Conditions link under the Legal section. 4. Click Terms & Conditions. 5. Observe the page that loads.
Expected Result	The Terms & Conditions link should redirect the user to the Terms & Conditions page successfully.
Actual Result	The Terms & Conditions link redirected the user to the Terms & Conditions page successfully.

Status	Pass
Priority	High

Test Case 3:

Attribute	Description
Test Case ID	TC-03
Module	Footer
Test Scenario	Verify that the Contact link in the footer redirects the user to the Contact page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Contact footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Contact link under the Legal section. 4. Click Contact. 5. Observe the page that loads.
Expected Result	The Contact link should redirect the user to the Contact page successfully.
Actual Result	The Contact link redirected the user to the Contact page successfully.
Status	Pass
Priority	High

Test Case 4:

Attribute	Description
Test Case ID	TC-04
Module	Footer
Test Scenario	Verify that the Disclaimer link in the footer redirects the user to the Disclaimer page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Disclaimer footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Disclaimer link under the Legal section. 4. Click Disclaimer. 5. Observe the page that loads.
Expected Result	The Disclaimer link should redirect the user to the Disclaimer page successfully.

Actual Result	The Disclaimer link redirected the user to the Disclaimer page successfully.
Status	Pass
Priority	Medium

Test Case 5:

Attribute	Description
Test Case ID	TC-05
Module	Footer
Test Scenario	Verify that the Support link provides access to the intended support functionality.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Support footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Support link under the Legal section. 4. Click Support. 5. Observe the page that loads.
Expected Result	The Support link should open the user's default email application or email composition window addressed to support@hisabdo.app.
Actual Result	The Support link opened Gmail successfully with support@hisabdo.app as the recipient.
Status	Pass
Priority	Medium

Test Case 6:

Attribute	Description
Test Case ID	TC-06
Module	Footer
Test Scenario	Verify that the Home link in the footer redirects the user to the Homepage.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Home footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Home link under the Explore section. 4. Click Home. 5. Observe the page that loads.

Expected Result	The Home link should redirect the user to the Homepage successfully.
Actual Result	The Home link redirected the user to the Homepage successfully.
Status	Pass
Priority	Medium

Test Case 7:

Attribute	Description
Test Case ID	TC-07
Module	Footer
Test Scenario	Verify that the App link in the footer redirects the user to the App page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	App footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the App link under the Explore section. 4. Click App. 5. Observe the page that loads.
Expected Result	The App link should redirect the user to the App page successfully.
Actual Result	The App link redirected the user to the App page successfully.
Status	Pass
Priority	Medium

Test Case 8:

Attribute	Description
Test Case ID	TC-08
Module	Footer
Test Scenario	Verify that the Founder link in the footer redirects the user to the Founder page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Founder footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Founder link under the Explore section. 4. Click Founder.

	5. Observe the page that loads.
Expected Result	The Founder link should redirect the user to the Founder page successfully.
Actual Result	The Founder link redirected the user to the Founder page successfully.
Status	Pass
Priority	Medium

Test Case 9:

Attribute	Description
Test Case ID	TC-09
Module	Footer
Test Scenario	Verify that the Leadership link in the footer redirects the user to the Leadership page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Leadership footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Leadership link under the Explore section. 4. Click Leadership. 5. Observe the page that loads.
Expected Result	The Leadership link should redirect the user to the Leadership page successfully.
Actual Result	The Leadership link redirected the user to the Leadership page successfully.
Status	Pass
Priority	Medium

Test Case 10:

Attribute	Description
Test Case ID	TC-10
Module	Footer
Test Scenario	Verify that the Blog link in the footer redirects the user to the Blog page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Blog footer link
Test Steps	1. Open the HisabDo website.

	2. Scroll to the bottom of the website. 3. Locate the Blog link under the Explore section. 4. Click Blog. 5. Observe the page that loads.
Expected Result	The Blog link should redirect the user to the Blog page successfully.
Actual Result	The Blog link redirected the user to the Blog page successfully.
Status	Pass
Priority	Medium

Test Case 11:

Attribute	Description
Test Case ID	TC-11
Module	Footer
Test Scenario	Verify that the FAQ link in the footer redirects the user to the FAQ page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	FAQ footer link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the FAQ link under the Explore section. 4. Click FAQ. 5. Observe the page that loads.
Expected Result	The FAQ link should redirect the user to the FAQ page successfully.
Actual Result	The FAQ link redirected the user to the FAQ page successfully.
Status	Pass
Priority	Medium

Test Case 12:

Attribute	Description
Test Case ID	TC-12
Module	Footer
Test Scenario	Verify that the Careers link in the footer redirects the user to the Careers page.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Careers footer link

Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Careers link under the Explore section. 4. Click Careers. 5. Observe the page that loads.
Expected Result	The Careers link should redirect the user to the Careers page successfully.
Actual Result	The Careers link redirected the user to the Careers page successfully.
Status	Pass
Priority	Medium

Test Case 13:

Attribute	Description
Test Case ID	TC-13
Module	Footer
Test Scenario	Verify that the email icon with support email address in the Contact section provide a functional email link.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Support email address (support@hisabdo.app)
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the email icon with support@hisabdo.app email address link under the Contact section. 4. Click email icon with support@hisabdo.app. 5. Observe the result.
Expected Result	The email link should open the user's default email application or an email composition window for the support email address.
Actual Result	The email icon with support email address opened Gmail successfully with support@hisabdo.app as the recipient.
Status	Pass
Priority	Medium

Test Case 14:

Attribute	Description
Test Case ID	TC-14
Module	Footer
Test Scenario	Verify that the location icon with Pakistan link in the Contact section redirect the user to Google Maps.

Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Pakistan location link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the location icon with Pakistan link under the Contact section. 4. Click Pakistan. 5. Observe the result.
Expected Result	The Pakistan link should redirect the user to Google Maps successfully.
Actual Result	The Pakistan link redirected the user to Google Maps successfully.
Status	Pass
Priority	Medium

Test Case 15:

Attribute	Description
Test Case ID	TC-15
Module	Footer
Test Scenario	Verify that the Google Play icon with Google Play link in the Contact section redirect the user to the HisabDo application page on Google Play.
Preconditions	The HisabDo website is accessible and the footer is visible.
Test Data	Google Play link
Test Steps	1. Open the HisabDo website. 2. Scroll to the bottom of the website. 3. Locate the Google Play icon with Google Play link under the Contact section. 4. Click Google Play. 5. Observe the result.
Expected Result	The Google Play link should redirect the user to the HisabDo application page on Google Play successfully.
Actual Result	The Google Play link redirected the user to the HisabDo application page on Google Play successfully.
Status	Pass
Priority	High
