Manual Testing

Submission Date:

1st August 2026

Test Scenarios & Test Cases

Website Tested:

Sauce Demo

URL:

<https://www.saucedemo.com/>

Test Case 1:

Test Case ID	TC_01
Test Scenario	Verify that the user can login with valid credentials.
S#	Test Steps
1	Open the website.
2	Enter the username "standard_user".
3	Enter the password "secret_sauce".
4	Click the Login button.
Expected Result	The user should be logged in successfully and redirected to the Products page.
Actual Result	The user was successfully logged in and redirected to the Products page.
Status (Pass/Fail)	Pass

Test Case 2:

Test Case ID	TC_02
Test Scenario	Verify that the system displays an error message when an incorrect password is entered.
S#	Test Steps
1	Open the website.
2	Enter the username "standard_user".
3	Enter an incorrect password.
4	Click the Login button.
Expected Result	The system should display an error message indicating that the username or password is incorrect.
Actual Result	An error message was displayed.
Status (Pass/Fail)	Pass

Test Case 3:

Test Case ID	TC_03
Test Scenario	Verify that the system displays a validation message when the username field is left empty.
S#	Test Steps
1	Open the website.
2	Leave the username field empty.
3	Enter the password "secret_sauce".
4	Click the Login button.
Expected Result	The system should display a validation message requesting the user to enter a username.
Actual Result	A validation message was displayed asking for the username.
Status (Pass/Fail)	Pass

Test Case 4:

Test Case ID	TC_04
Test Scenario	Verify that the system displays a validation message when the password field is left empty.
S#	Test Steps
1	Open the website.
2	Enter the username "standard_user".
3	Leave the password field empty.
4	Click the Login button.
Expected Result	The system should display a validation message requesting the user to enter a password.
Actual Result	A validation message was displayed asking for the password.
Status (Pass/Fail)	Pass

Test Case 5:

Test Case ID	TC_05
Test Scenario	Verify that a product can be added to the shopping cart successfully.
S#	Test Steps
1	Login using valid credentials.
2	Click the Add to Cart button for the Sauce Labs Backpack product.

Expected Result	The selected product should be added to the shopping cart and the cart badge should display 1.
Actual Result	The product was added successfully and the cart badge displayed 1.
Status (Pass/Fail)	Pass

Test Case 6:

Test Case ID	TC_06
Test Scenario	Verify that a product can be removed from the shopping cart.
S#	Test Steps
1	Login using valid credentials.
2	Add a product to the cart.
3	Click the Remove button for that product.
Expected Result	The selected product should be removed from the shopping cart and the cart badge should be updated.
Actual Result	The product was removed successfully and the cart badge was updated.
Status (Pass/Fail)	Pass

Test Case 7:

Test Case ID	TC_07
Test Scenario	Verify that the shopping cart page opens correctly.
S#	Test Steps
1	Login using valid credentials.
2	Click the shopping cart icon.
Expected Result	The shopping cart page should open and display the products that have been added to the cart.
Actual Result	The shopping cart page opened successfully and displayed the selected products.
Status (Pass/Fail)	Pass

Test Case 8:

Test Case ID	TC_08
Test Scenario	Verify that the navigation menu opens successfully.
S#	Test Steps
1	Login using valid credentials.
2	Click the menu icon located in the top-left corner.
Expected Result	The navigation menu should open and display all available menu options.
Actual Result	The navigation menu opened successfully and displayed all menu options.
Status (Pass/Fail)	Pass

Test Case 9:

Test Case ID	TC_09
Test Scenario	Verify that the user can log out successfully.
S#	Test Steps
1	Login using valid credentials.
2	Open the navigation menu.
3	Click the Logout option.
Expected Result	The user should be logged out and redirected to the login page.
Actual Result	The user was successfully logged out and redirected to the login page.
Status (Pass/Fail)	Pass

Test Case 10:

Test Case ID	TC_10
Test Scenario	Verify that the products are sorted correctly when the Price (Low to High) option is selected.
S#	Test Steps
1	Login using valid credentials.
2	Click the sorting dropdown menu.
3	Select Price (Low to High).
Expected Result	The products should be displayed in ascending order based on their prices.
Actual Result	The products were displayed in ascending order of price.
Status (Pass/Fail)	Pass

Bug Report:

Bug ID	BUG_01
Bug Title	Order can be completed without any product in the shopping cart.
S#	Steps to Reproduce
1	Open the Sauce Demo website.
2	Log in using valid credentials.
3	Ensure that no products are added to the shopping cart.
4	Navigate to the checkout process
5	Enter the required checkout information.
6	Click Continue and then Finish.
Expected Result	The system should not allow the user to complete the checkout process when the shopping cart is empty. A validation message should be displayed asking the user to add at least one product.
Actual Result	The system completed the checkout process successfully and displayed the order confirmation message.
Severity	High
Priority	High
Status	Open
